PECB

As the world is moving faster than ever, technological developments have rapidly evolved and are redefining, among others, the way we live, learn, and teach. This expansive nature of the internet and technology demand new ways of adapting to this new virtual environment for all of us. As such, the use of new and more efficient learning methods is continuing to grow across a broad range of industries. In this new world, eLearning has become the tool of choice for learning and teaching worldwide.

The ISO 31000 Risk Manager eLearning training course helps you acquire the knowledge and ability to integrate the risk management guidelines of ISO 31000 in an organization. It provides information with regard to the risk management principles and their application, as well as the core elements of the risk management framework and steps for a risk management process.

Meet the Trainers

Our eLearning training courses have been catered to meet each individual's needs and have been designed with the aim of transcending spatial and temporal restrictions. Each eLearning training course is delivered by experienced Trainers from all around the world, and is divided into several video sections and subsections. Videos contain animations to support what the trainer is lecturing — the animations correspond to the sections provided in the traditional mode of training. To keep our candidates engaged, we have incorporated quizzes into our eLearning training courses.

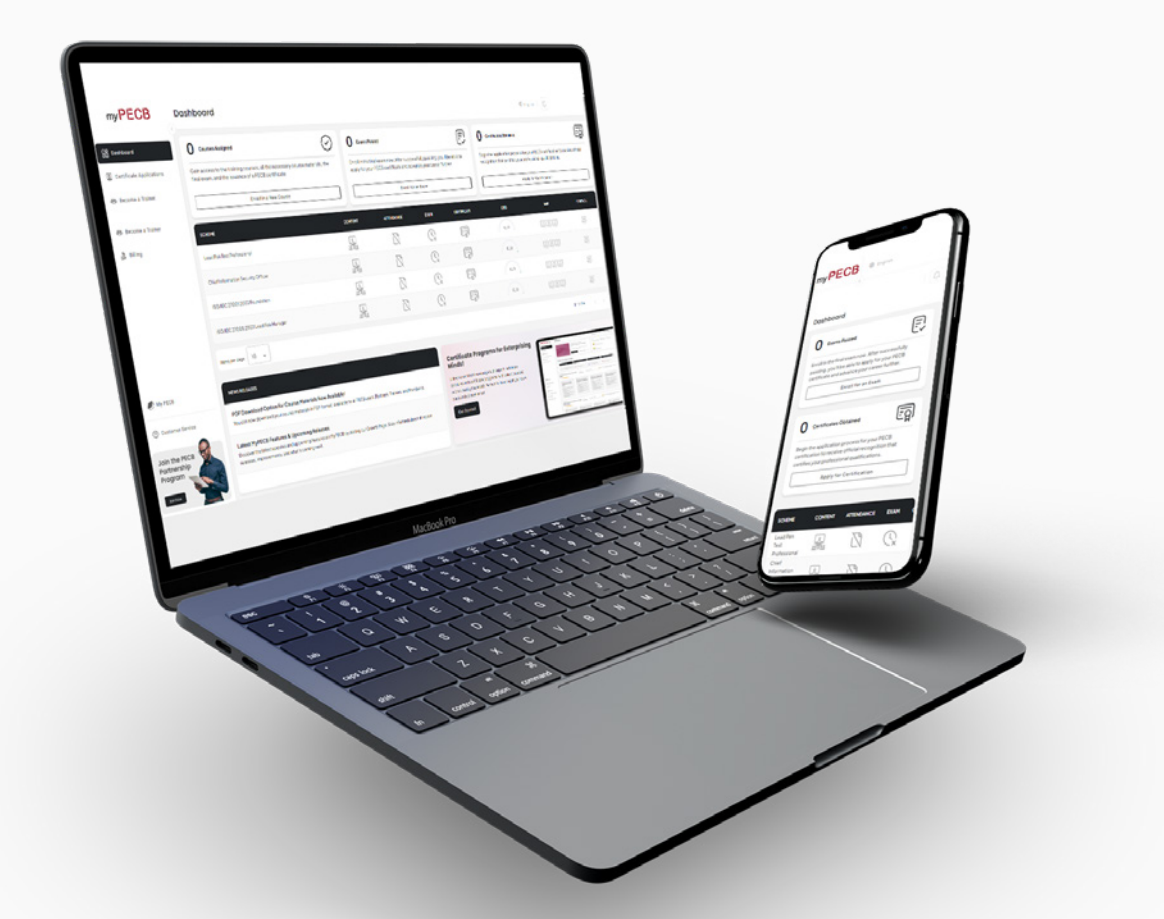
How does the ISO 31000 Risk Manager eLearning experience look like?

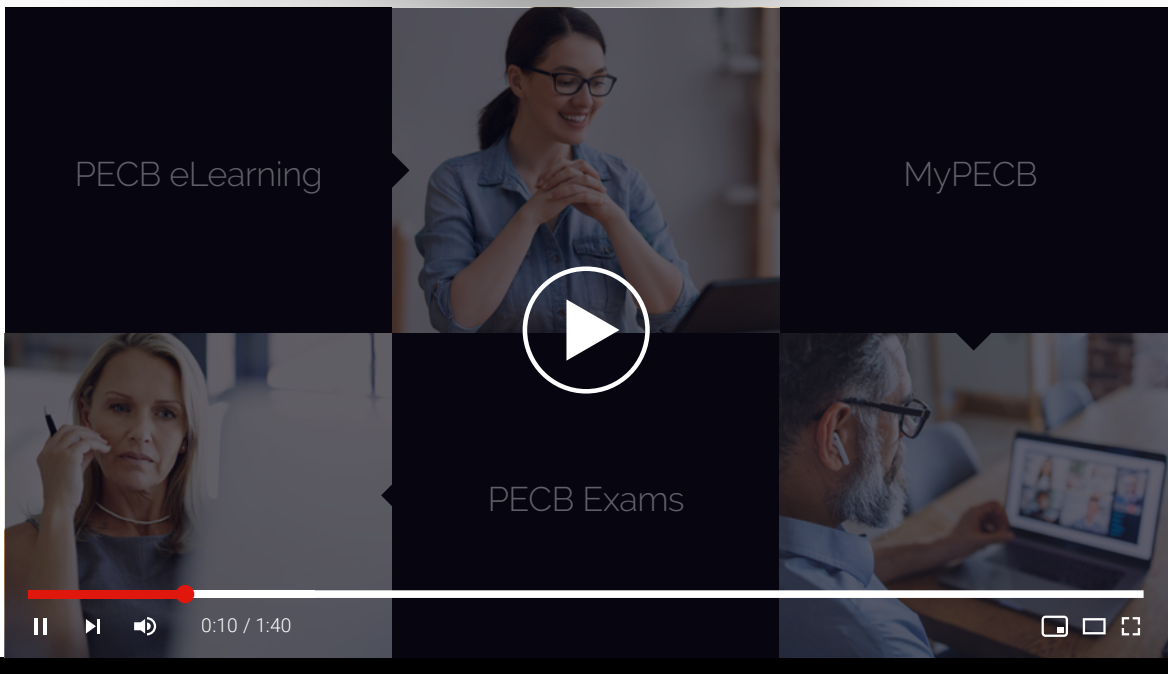
Our ISO 31000 Risk Manager eLearning training course is delivered on MyPECB platform. Once logged on using your PECB account, you will be able to browse through the sections of the ISO 31000 Risk Manager training course.

In addition to having the training course content in video format, you will also be able to access the regular training course materials structured in training course days with the additional files available in an editable format (depending on the training course, the case study, exercises, and exercises correction key files will also be available).

In addition to the lectures and the training course materials, quizzes have been incorporated to increase the interactivity of our training courses.

- ✓ Take the training course
- ✓ Access the materials on MyPECB
- ✓ Enter the exam at your most convenient date, time, and location via PECB Exams





How can you benefit from the PECB eLearning experience?

Our eLearning training courses have been designed to meet the needs of diverse learners who have different learning preferences and/or limited time to attend a training course session.

Here are some of the main benefits of the PECB eLearning experience:

- ✓ Both the training course and the examination are conducted fully online. Thus, all you need is an electronic device, and internet access
- ✓ The training course is available 24/7, so you can adapt your study pace, time, and location to your schedule instead of having to adapt your schedule to the training course.
- ✓ The unlimited access allows you to go back to any section of the training course as needed.
- ✓ Every training course consists of several video sections.
- ✓ This was done with the sole purpose of making the information easy to receive and process.

Simply put, the eLearning training courses are a convenient way to effectively enhance your professional skills.

Why should you attend?

Risk is an inherent component of any type of undertaking, especially in the modern world of business. Having a structured and proactive approach to risk is not a competitive advantage; it is a necessity.

In this regard, the main purpose of ISO 31000 is to provide generic guidelines for the management of risk; guidelines that could be applied by organizations of all types and sizes.

This eLearning training course will enable you to structure a Risk Management Framework based on international best practices. It will help you create a structured approach regarding the identification, analysis, treatment, assessment, and evaluation of risks that are or can be faced by an organization.

After attending the eLearning training course, you can take the exam. If you successfully pass, you can apply for a "PECB Certified ISO 31000 Risk Manager" credential, which demonstrates your ability and practical knowledge to implement a risk management framework in an organization based on the guidelines of ISO 31000 and industry best practices.

Who should attend?

- ✓ Managers or consultants responsible for the effective management of risk in an organization
- ✓ Individuals seeking to gain knowledge about the risk management principles, framework, and process
- ✓ Persons responsible for ensuring conformity with the requirements of ISO 31000 in an organization
- ✓ Individuals interested in pursuing a career in risk management
